## OBJECTIVE

Motivated Computer Science graduate seeking to gain experience and utilize communication and interpersonal skills to contribute to organizational goals. Eager to apply academic knowledge in real-world projects, learn emerging technologies, and develop practical expertise in software development and problem-solving. A quick learner with strong teamwork, adaptability, and analytical skills, aiming to grow as an IT professional while adding value to the organization.

## SKILLS

**Programming Languages:**

- Core Java: OOPs, Collections, Exception Handling
- Java 8 Features: Streams, Lambda Expressions, Map, Filter, Optional

**Back-End Development:**

- Spring Framework: Spring Core, Spring Boot, Spring Data JPA, Spring MVC, Spring Security, JWT, Spring RESTful APIs ,Microservice
- J2EE: JDBC, Servlets, JSP

**Front-End & Web Technologies:**

- HTML5, CSS3, JavaScript
- Libraries / Framework : React JS.

**Database Management:**

- MySQL (Query Optimization, Stored Procedures, Indexing)

**Development & Build Tools:**

- Maven, Git, GitHub, Postman, Swagger

**IDEs & Code Editors:**

- Eclipse, Spring Tool Suite (STS), Visual Studio Code

**Soft Skills:**

- Team Leadership, Time Management, Effective Communication, Continuous Learning

## EDUCATION

**Bachelor of Engineering in Computer Science and Engineering (B.E)** **CGPA : 8.4**
Vijaya Vittala Institute Of Technology – Bangalore, Karnataka 2022-2026

## INTERNSHIP

- Java Full-Stack Development - Dhee Coding Lab (Bangalore, Karnataka) Feb 2026 – July 2026

## PROJECTS

### E-Commerce Application (ongoing)

- Developing a RESTful E-Commerce Application using Java and Spring Boot with a modular, layered architecture.
- Completed the User Service with REST APIs for user registration, authentication, role management, and user-related operations.
- Currently developing the Product Service for product management, including product creation, retrieval, updating, and deletion.
- Implementing Spring Data JPA and MySQL for database persistence and managing entity relationships.
- Applied Controller, Service, Repository, Entity, and DTO layers to ensure clean and maintainable code.
- Testing and validating REST APIs using Postman and managing project dependencies with Maven.

**Technologies:** Java, Spring Boot, REST API, Spring Data JPA, MySQL, Lombok, Maven, Postman

### Inventory Billing System :-

- Developed a console-based Inventory Billing System with separate **Cashier** and **Manager** modules for billing, inventory management, and sales tracking.
- Implemented the **DAO Pattern** to separate business logic from data access, improving maintainability and scalability.
- Engineered **ACID-compliant JDBC transactions** using commit and rollback to ensure reliable billing and inventory updates.
- Secured database operations using PreparedStatement, preventing SQL Injection and improving query performance.
- Built real-time inventory monitoring with automatic stock deduction and low-stock alerts.
- Developed CRUD operations and optimized SQL queries for efficient product, inventory, and sales management.

**Technologies:** Java, MySQL, JDBC, DAO Pattern, CRUD Operations.

**SIMPLE TODO LIST**

- Developed a responsive To-Do List application for creating, updating, deleting, and managing daily tasks.
- Implemented dynamic DOM manipulation and event handling for real-time task management without page refreshes.
- Applied input validation and modular JavaScript functions to improve application reliability and maintainability.
- Designed a clean, responsive user interface using HTML5, CSS3, and JavaScript.

**Technologies:** HTML5, CSS3, JavaScript

## CERTIFICATIONS

- Java Full Stack Development | Dhee Coding Lab | Feb 2026 – July 2026 (6 Months)
- Data Analytics Essentials | Cisco Networking Academy
- Networking and Web Technology | Infosys
- Green Skills & AI Foundation | Skills4Future Program

## DECLERATION

The provided information is affirmed to be true to the best of knowledge. Should an opportunity arise, commitment is pledged to exert utmost effort in learning and executing entrusted duties to the fullest extent possible.
